GOOD PROSPECTS FOR SUMMER TERM

President Briles informs us that the prospects for a successful summer term of the normal is bright indeed. Johnston and Seminole counties have already, and without solicitation, signified their desire to participate. Murray will doubtless follow suit when the county institute holds its meeting Saturday, and others will accept the invitation as soon as they have the opportunity.

The summer term will open June 13 and will continue six weeks. The term of last summer was a most successful one and served to attract the attention of the teachers of this section who desire an opportunity for thorough work.

Home Abstract Company Moves.

A. H. Constant and R. P. Ford have formed a partnership and moved the Home Abstract and Real Estate office up stairs in the Rollow building on Main Street. They now occupy the suite of rooms formerly occupied by Dr. Rubyan.

These two men make a strong company, as Mr. Ford is already one of the largest land holders in the county, and Mr. Constant has in the past enjoyed a good business.

Call for County Warrants.
I can pay the following county warrants:

CARRIE NATION GETTING WELL.

Will Soon Be Able to Leave Sanitarium Says Physician.

Leavenworth, Kan., Jan. 31.—The condition of Carrie Nation, who is being treated at the sanitarium here for a nervous breakdown, is much improved after a week's care. Dr. C. Brook Goddard, attending physician, said last night that his patient will be ready to leave the sanitarium in less than a month. For several days after she came here Mrs. Nation rebelled against the treatment given her. However, she thinks only of her health now and Dr. Dr. Goddard gives this as the most prominent factor toward her recovery.

SAN FRANCISCO

GETS EXPOSITION

Washington, Jan. 31.—The house of representatives Tuesday by a vote of 188 to 159 decided in favor of San Francisco and against New Orleans as the city in which an exposition to celebrate the opening of the Panama canal in 1915 shall be held. This vote was taken on a roll call to determine whether the San Francisco resolution or the New Orleans bill should have consideration in the house. On a final vote the San Francisco resolution was adopted by a vote of 259 to 43.

The advocates of San Francisco are expecting Tuesday night that their fight is won and that the senate will ratify the action of the house.

San Francisco won by capturing the republican vote in the house. New Orleans support came from the democrats. Only thirty republicans voted for New Orleans. Thirty-six democrats voted for San Francisco.

POLITICIANS AFTER NEW CHIEF

Department Inspectors in Oklahoma Seeking Basis for Charges?

Guthrie, Okla., Jan. 31.—Interior department inspectors are in Oklahoma looking up the record, political and otherwise, of D. C. McCurtain of Kinta, recently appointed governor of the Choctaw Indian nation by President Taft to succeed the late Green McCurtain, his father. It is understood that McCurtain was appointed mainly on the recommendation of Judge Thomas Ryan, of Muskogee, an Indian department official, who formerly was with the department at Washington.

At the same time, Gilbert W. Dukes of Tahlequah, a former governor of the Choctaws, Captain Dick Locke, of Antlers and Allen Wright of McAlester, were candidates to succeed the late chief.

All are republicans, whereas it is charged that D. C. McCurtain has always been a democrat being chairman of the Pittsburg county democratic committee in 1906, mentioned as a candidate for congress on the democratic ticket, and on the stump for democracy in that campaign.

J. W. West of Purcell who was here the past week on business returned home yesterday afternoon.

LEGISLATIVE BULLETINS

DISTRICT ATTORNEY BILL WILL PASS—CRAWFORD MEMBER DISTRICTING COMMITTEE.

Oklahoma City, Jan. 31.—The following committee was named late this afternoon by Speaker Durant to redistrict the state: Mr. Crawford of Pontotoc; Mr. Steen of McIntosh; Mr. Woodson of Woods; Mr. Webb of Choctaw; Mr. McChattic of Swanson; Mr. Maxey of Pottawatomie; Mr. Jayne of Seminole; Mr. Champion of Carter; Mr. Coyne of Craig; Mr. Coughlin of Tillman; Mr. Jones of Jefferson; Mr. Edwards of Haskell; Mr. Killam of Delaware; Mr. Tobey (republican of Beaver, and Mr. Smith of republican.

Senator Roddie, author of the Roddie banking bill, moved in the senate Tuesday afternoon that the bill again be reconsidered and a provision inserted which would require national banks which were made depositories of state bank funds, to give bonds to the state banking board. The motion was voted down.

The county division bill, which eliminates the possibility of creating new counties in Oklahoma, was recommended for passage by the house Tuesday afternoon while in committee of the whole.

Senator Goulding introduced a bill in the senate providing for an appropriation of \$4,000 for the salary and expenses of the state fire marshal's office which is proposed in a bill which recently passed the house and is now pending before the senate.

The free textbook bill, by Representative J. R. Williams is Tuesday being considered in the house by the committee of the whole. The bill has for its object the furnishing of free books to every school child in the state.

The bill creating the office of district attorney will be passed by the house. This was decided at a caucus of the democratic members Tuesday morning. The bill provides that the salary of the district attorney shall be \$3,000 a year.

The question that has not been settled, however, is whether the law shall go into effect immediately or in 1913. Many of the democrats want the emergency clause passed and a provision authorizing the governor to appoint district attorneys, who would serve until 1913, when they

FURNITURE ON EASY PAYMENTS SMITH'S 203-5 W MAIN ST.

would stand for election before the people. Others claim there is no necessity for haste and that the office need not be created until 1913.

Details to Committee.

The details of the bill will be threshed out and finally settled by a committee. It is expected the measure will be put upon its passage one day this week.

Most of the republicans appear to be against the measure. Some are of the opinion that it is a bad political move for the democratic party. A number of democrats who will abide by the caucus complained bitterly after its adjournment that the bill ought not to pass. One said it was a good thing for the young lawyers who wanted a job to learn law.

HASKELL'S MOTION DENIED

Judge Refuses to Allow Plea of Statute of Limitation in \$42,000 Suit Filed by Loder.

Guthrie, Okla., Jan. 30.—Former Gov. C. N. Haskell's motion, pleading the statute of limitation on the judgment for \$42,000 secured against him in the Supreme court of New York County in 1900 by Cornelius S. Loder, was denied by Judge Cotteral in the United States Circuit Court today. The judgments represent the amount still alleged due to Illinois Steel Company on a loan made to

Haskell in 1898. Immediately after Cotteral's ruling the case went to trial, a jury being waived. Loder was on the stand for some time and the attorneys finished tonight submitting the case, which is now before the Court for decision. Haskell's attorneys asked permission to present further authorities tomorrow morning that the statute of limitation plea should be upheld.

During the trial papers were served on Loder, which command him and Haskell as garnishee defendants with the Illinois Steel Company to appear in the District Court at Oklahoma City on March 20, and show whether or not they have any of the company's property in their possession. Walter R. Eaton of Muskogee, Haskell's business manager, is the plaintiff in this case.

OVERTURNING BOSSISM.

How New Hampshire's New Governor Won Without Railroad "Ring."

One day along toward the autumn of 1904, a young man drove down the hilly Main street in Petersboro, New Hampshire, and stopped in front of a lawyer's office. He had barely turned thirty years, and he looked very boyish; but he had an air of quiet determination that would have singled him out in a crowd. In the doorway of the building he met the man he was seeking—the local republican boss, one of that far-reaching railroad ring that extended to the remotest sections of the commonwealth. "I want to run for the legislature," said the young man.

"You can't, Bob," was the reply he got. "It is all fixed. In time you may be allowed to run."

"But suppose the people want me?" persisted the young man.

The lawyer laughed.

"There is no such thing as 'the people' in this state," he said.

The young man made no threats, but the next day he began to visit the farmers in the county. He told them that he was going to have his name put up in the caucus.

"What's the use?" they said. "It's all cut and dried."

"It's worth trying if you will only come," he urged.

The night of the caucus was cold and drizzly, just the kind of weather to keep the farmers at home by their comfortable stoves and firesides. But a good many showed up, greatly to the surprise of the bosses, who had been in the habit of putting their program through with a handful of henchmen. More surprising than this was the young man's nomination on the first ballot. Thus Robert Perkins Bass entered into the politics of New Hampshire, thereby taking the first step toward a public career that make him today a figure of nationwide interest and significance.

He is still in his thirties; still youthful in appearance and enthusiasm, and he sits in the governor's chair at Concord, an executive of all the people. The dent that he made in the little local machine on that rainy autumn night of his first nomination

BYRD'S MILL BONDS SOLD

PURCHASED BY GREER BOND AND INVESTMENT CO. OF OKLAHOMA CITY.

The Byrd's Mill waterworks bonds have been disposed of.

At a meeting of the council held yesterday evening the bid of 94 made by the Greer Bond and Investment Co., of Oklahoma City, through J. E. Taylor, its representative, was accepted and the bonds will be delivered as soon as the necessary legal matters connected with the sale can be disposed of. The council considers that a good trade was made as the best offer made heretofore was only 90. The heavy issues of Oklahoma bonds and the tightness of the money market have lowered the price of the securities until they no longer command par unless the interest rate is made correspondingly high.

The council will lose no time now in arranging for beginning the work and before the year is very far advanced Ada will have the water for which it has so long labored.

was merely the beginning of his crushing blows at the corrupt and seasoned political oligarchy that had ruled the state for years. In a year when republican candidates, throughout the Eastern States, went down under a democratic landslide, he was elected by a comfortable majority.

Now, the fact that Mr. Bass is governor at an age when most men are cutting their teeth in big politics is not as important, perhaps, as the larger meaning of his position as a link between East and West in progressive republican thought. He has made New Hampshire touch shoulder with Oregon. To him, too, more than to any other person, is due the divorce of the railroad from politics.—The Munsey.

How Times Have Changed.

From the issue of the Ada News of Sept. 24, 1902, we clip the item found below. It is only another reminder of how time changes things and how a big business will grow from a little one.

"R. W. Simpson is owner and proprietor of the 'Surprise Store' on West Main opposite the court house. Mr. Simpson informs us that he will carry a three thousand dollar stock, consisting of shoes, clothing, gents furnishing goods, queensware, notions and everything found in an up-to-date racket store.

FRIENDSHIP.

Friendship is the most highly prized
thing in the world because of its
extreme rarity. It cannot be said
that it costs nothing, for if two men
are true friends it usually costs
them a great deal in the course of
a lifetime. If one happens to wander
for a moment from the straight
path it requires courage for his
friend to stand by him while the
world heaps its scorn upon his head.
If one falls into financial difficulties,
it means a sacrifice for the other to
reach down and help him out and
take chances on his retrieving his
losses and making good the aid given
him in the time of distress. On
the other hand, it requires real courage
sometimes for a man to go to
his friend and ask for the favors
he knows would be most readily
granted. He thinks of his friend's
condition and needs before his own.
Yes, friendship, is indeed a jewel
rare and is more to be desired than
diamonds.

The News rejoices that the water-
works bonds have been disposed of,
and awaits with impatience the time
when work will begin on the enter-
prise that means the salvation of Ada.
The people showed their spirit when
they by a practically unanimous voice
declared themselves in favor of the
plan. They again proved that when
the interests of the entire town are
at stake they can be relied on to put
their shoulders to the wheel and
push. They demonstrated that when
an opportunity presents itself, they
are keen sighted enough to recognize
and grasp it. The successful issue of
this enterprise will be the beginning
of many others. Already we see vi-
sions of smoke pouring from numer-
ous stacks and the prosperity that
comes from a big pay roll and Ada
growing as rapidly as carpenters and
masons can erect houses. Good times
are certainly coming.

Some men seem to learn nothing
by the experience of others. A bill
has just been introduced into the
Oklahoma legislature forbidding the

THERE ARE STILL SOME UNGER- TAINTIES. OF COURSE!

If you knew that by ten inser-
tions of a one-inch ad you could
positively sell your property at a
fixed price, you'd pay a high ad-
vertising rate for those ten inser-

It is not such a certainty as that,
of course! But, so far as any-
thing can be certain, you may be
sure that a reasonable amount
of advertising will sell your
property—and that the final cost
of advertising will be so small as
to seem trivial.

Night Operator Held Up.
McAlester, Ok., Jan. 31.—About 4
o'clock this morning two unknown
men broke a window of the Missouri,
Kansas and Texas Railway ticket of-
fice at Wagoner, Ok., and covering the
night operator, J. W. Register, with
a revolver, ordered him to give them
the money in the ticket drawer,
amounting to about \$15. After secur-
ing the money, the operator was or-
dered to open the safe. The opera-
tor claimed that he did not know
the combination, and after parleying
for some time the robbers took their
departure going south. The sheriff
has a posse with bloodhounds in pur-
suit, but as yet has not effected the
capture of the men.

man's physician, Dr. L. A. Milne was
called to his bedside yesterday.
Quannah has rheumatism. His condi-
tion is critical. "As yet his heart is
unaffected, but I can not tell how
long it may remain so," said Dr.
Milne. "The advanced age of the chief
makes his case a bad one."

NOTES FROM THE PUBLIC SCHOOLS

Rev. E. M. Sweet was a visitor at
the south school Monday morning
and the pupils were delighted with
the lesson he brought to them in the
talk at chapel. He emphasized the
fact that we should look beyond a
common school education as a pre-
paration for the duties and responsi-
bilities of life. He is cordially invit-
ed to come again.

We appreciate the efforts being put
forth by the patrons club to assist in
securing books and apparatus much
needed in the schools.

The club at Willard school is giv-
ing a tea this afternoon at the home
of Mrs. Wingo, the proceeds of which
will go to the library fund. The club
at the South school will serve lunch
all day tomorrow at the Ada Elec-
tric and Gas Co. office on Broadway.
Electricity will be used in the pre-
paration of this lunch.

The parts needed for the repairing
of the North side boiler were or-
dered the first of last week and are
expected any day. About two days
will be required to put things in or-
der after their arrival.

From the 13th to the 18th of this
month has been set apart as a time
when we expect to raise a neat sum
to purchase books for the school li-
braries. On Saturday 18th will be
tag day and a troop of boys and
girls representing every grade in the
system will see that every fellow
who dares show himself on the street
or in his office will contribute some-
thing to the Ada public school li-
braries or make a speech.

Edward Johnson, the new repre-
sentative of the Western Newspaper
Union, was around to interview the
News office this morning. He will
likely make this territory hereafter.
We shall miss the occasional visits
of Bill Kennedy, the veteran travel-
er of the Union, for we always had
a picnic when he came around, but
Mr. Johnson impressed us as being
a good all round fellow.

MILL VILLAGES IN SOUTH

Undeniably Afford Better Conditions
Than the People Encountered
Elsewhere.

In South Carolina 150,000 persons,
or one-fifth of its white population,
live in cotton mill villages, while in
the counties of Greenville, Spartanburg
and Anderson one-third of the popula-
tion is in these villages, and the vil-
lages continue to grow.

The South Carolina mill village is
usually a separate community, some-
times having a population of over 5,000
inhabitants. It is entirely owned and
controlled by the mill, and its resi-
dents have no village corporation of
any kind.

These villages are built by the mill
managements for the simple reason
that their people could not otherwise
be housed near a mill. They attract
much more attention from strangers
than from southerners; for strangers,
seeing in them for the first time the
general poverty and other distressful
conditions of our people, handicapped
as they have been with legacies from
slavery and war, associate these with
the village.

But all Carolinians know, says the
South Atlantic Quarterly, that these
villagers are of the same stock as
they themselves, being composed as a
class of the less successful, to whom
the mills have offered much better
wages, with better labor and living
conditions, than they had before.

It is undeniable that South Carolina
mill managements, owing to various
causes, come into closer personal
touch with their individual operatives
and feel more interest in them as a
body than do eastern cotton manufac-
turers, and that South Carolina opera-
tives have been benefited by coming
to the mills; that the separate cot-
tages of southern mill villages, with
plenty of air and larger grounds, are
better than the city tenements gener-
ally used by such operatives in the
east, and that the village living con-
ditions, as a rule, are steadily improv-
ing.

PLANS FOR A MODEL CITY

Boston-1915 Directors See Many
Changes in the Future—Trunk
Sewers Are Advocated.

How to develop the metropolitan
district has been outlined by the Bos-
ton-1915 directors.

Changes suggested in the trans-
portation problem point in every case
to metropolitan improvements to be
obtained by uniform development.

"Rapid transit and steam systems
should make a unified system of pas-
senger transportation between all
parts of the district.

"All freight lines should be con-
nected with one another and with the
water front. Freight yards should be
distributed to avoid long teaming
hauls.

"The system of radial thorough-
fares should be perfected. The cir-
cumferential thoroughfare system
should be completed. All the main
thoroughfares of travel should be of
ample width.

"Trunk sewers are advocated. The
existing policy of reserving land and
sites for public buildings should be
continued and perfected, the commit-
tee believes. Changes in building
and housing requirements are ad-
vocated, in the belief that "the inequali-
ties at present existing discourage in-
vesting capital and cause slum condi-
tions in the lax localities."—Boston

American Towns Waking Up.

Some districts and sections frankly
recognize their advantages in climate,
scenery and kindred attractions as
one of their chief assets. New Eng-
land, more than any other part of
the country, profits by its summer
charms, but the Rocky mountain re-
gion is not far behind in that respect.
Florida has long counted upon winter
tourists as one of its chief sources of
prosperity.

Cities and districts which have no
exceptional advantages of site or cli-
mate, scenery or historic interest, are
finding a lesson worth heeding in the
many instances of large profits from
beauty and esthetic charm which the
world affords. They are realizing that
much civic beauty is the fruit of civic
pride and public spirit. They are
building their public edifices, laying
out their parks and taking care of
their streets with more understanding
than they had in the past of the busi-
ness wisdom of liberality and breadth
of view in such affairs.

The ultimate consequence of this
growing consideration of beauty and
charm in the development of urban
centers must color many phases of na-
tional progress. It is an influence
which spreads and grows stronger,
year by year.

Hartford Has Good Idea.

The city of Hartford, Conn., will be-
gin this fall a systematic planting of
trees on its public thoroughfares. The
matter will be in charge of the city
forester, who will first inspect the
streets to find out where trees are
most needed. A city nursery will be
opened later.

PREMIUMS TO BOYS FOR GOOD CORN

Supt. Pierce was so well pleased
with the result of the boys' corn
clubs last year that he has announ-
ced his intention of pushing the move-
ment still further this year. This
morning he happened to mention the
fact to Frank Huddleston and that
live wire offered to contribute two
boar pigs one to be given to the boy
exhibiting the ten best ears of white
corn, and the other to go to the boy
bringing in the ten best ears of yellow
corn. Frank does not want to dis-
criminate between the two varieties

Many other prizes will be offered
both to the boys and to the girls for
exhibits of domestic science prod-

A Store Full of the Highest Quality New Merchandise

While planning and preparing for the beginning of our mercantile career in Ada we spent much time in the buying end of the business, hunting for the best merchandise and greatest values.

We are now showing the results of our efforts in the buying field. We feel that it is in the purchase of our stock of groceries that we can best guard the interest of our customers and offer them assurance of superior qualities, and always at right prices. We say to you in the very beginning that we make it a point to stand back of our goods. We can do this because we use the utmost painstaking care to secure our goods from sources which have a thoroughly established prestige for quality. We put everything through a searching examination before buying, and it has to come up to our high standard before we place it in stock. That means we give you quality insurance with every purchase.

To make this insurance stronger we stand back of everything we sell with our personal guarantee, ready to make good should any merchandise sold by us fail to come up to the full measure of our representations. Could you expect more?

REMEMBER THIS: If it's good to eat we have it, if we have it it's good to eat.

We expect to make our store the place where you will find THE BEST ALL-ROUND VALUES IN THE MARKET. The place where high quality at lowest prices is the supreme aim and highest consideration. We want your trade and will be thankful for it. May we have it? Your orders will have our very prompt personal attention.

HOLD UP AT RANDOLPH

NIGHT OPERATOR OVERPOWERED AND CONTENTS OF CASH DRAWER TAKEN.

Last night, shortly before the arrival of the north bound Highler, two rough looking men entered the depot at Randolph and held up the night operator, getting away with the cash in the drawer, amounting to something over \$10.

According to our information, the men called the operator to the ticket window. They demanded the money and when he hesitated about complying with the order, one climbed over the counter with a knife, the other came in with a gun and after trying him they rifled the cash drawer of its contents. They then started towards the crossing with the idea of catching a train north.

The agent described them as being about five feet six, weighing about 150 pounds and wearing dark suits and black hats.

FREE TEXT BOOKS FOR SCHOOL CHILDREN

Oklahoma City, Feb. 1.—The free text book bill was passed to final roll-call with very little trouble. An amendment appropriating \$500,000 out of the state treasury for the scholastic years ending in 1912 and 1913, or \$250,000 per year, had been previously agreed upon as a compromise between the advocates of state or district ownership of the books and was presented by Mr. Anthony. It was supported by Speaker Pro Tempore J. Roy Williams, the author of the bill, and went through easily.

The quarter million dollars annually is to be apportioned to the districts on August 15 of each year, just as the school funds are apportioned now, according to the scholastic population.

Under the bill as finally passed, pencils, tablets, drinking cups and other supplies will not be furnished free to the pupils.

LIFE ISN'T WORTH LIVING.

When This Statement Is Made It May Be Generally Attributed to the Lack of Good Health.

We want to talk to people who are nervous, who suffer frequent headaches, who don't enjoy their food, who are irritable, quickly lose their temper, who are so exhausted that they feel they must give up, and have become so despondent that life doesn't seem worth living.

Most of the above described conditions are chiefly caused by what is commonly called catarrh, a "below par" condition of mucous membranes. This delicate lining of certain of the body cavities becomes weakened, inflamed and congested until the whole system is weakened, mental depression ensuing as one of the results. The wise way to overcome this condition is through a treatment of the general system. We have the treatment, and we are so positive it will produce the results we claim for it that we will supply it to any one with the understanding that we will return to them every penny paid us in every instance where the treatment is not in every way satisfactory and beneficial to them.

We want to try Rexall Mucu-Tone which is a scientifically devised alterative tonic and body builder, its action being to aid the body in its effort to re-establish the natural and healthy functions of the mucous membranes.

Rexall Mucu-Tone thus acts to expel the "catarrhal poison," restore the mucous cells to good health, tone up the whole body, allay inflammation, remove congestion and stimulate the system to healthy activity. It is splendid for aiding in the building up of flesh and muscle tissue and removing weaknesses.

Come to our store and get a bottle of Mucu-Tone, and after giving it a reasonable trial, if you are not satisfied, simply tell us so, and we will hand back your money without question. Surely nothing could be more fair than this. Rexall Mucu-Tone comes in two sizes, 50 cents and \$1. Remember you can obtain Rexall Remedies in Ada only at our store—The Rexall Store, The Gwin & Mays Co.

Of Interest to Society People.

Union Valley.

Progressive farmers are putting their farms in readiness for early spring work.

W. R. Riddle is doing some improving by way of new fences, and a general clean up. He also bought through the Atoka sales a new addition to his already fine farm.

Sam Murphy purchased a nice farm in the Atoka land sales. He is doing a wise and progressive thing.

There is no reason why more renters should not own their own homes. We are too nomadic in Oklahoma and land is so cheap as compared to what it will be soon.

Many of our people went to Ada and Stonewall Tuesday to see the A. & M. exhibit and to hear the lectures.

Prof. A. T. Dunham who is principal of the Frisco school and his sister, Miss Alta, who has charge of the 4th grade in the Stonewall school went to Ada Saturday to the teachers' meeting.

School is progressing nicely under the able management of Prof. E. A. Dunham and his sister, Miss Iva. The patrons in general are heartily in accord with the teachers in their efforts.

This is the one country school in this county doing regular first year high school work, and no better work is being done in the county in Latin, algebra, rhetoric and history, than is being done by the 9th grade students here.

The Music class taught on Tuesday and Friday afternoon is well attended. This class is for the benefit of all in the neighborhood who are interested in vocal and instrumental music. The class will continue until the close of the term.

Hampton Porter visited the school Monday and entertained with some good music.

A literary and debating club will be organized at Union Valley in a short time. We have some excellent talent and we hope to develop it. We shall need the co-operation of all our people. Visitors will be welcome.

Our Sunday school classes are large and very interesting. The instruction given by the teachers, is good. We need only a few more young people in each class.

Notice.

Mrs. C. M. Chauncey, 3rd vice president of the W. H. M. S. of the First Methodist church, urgently requests the children to bring their mite boxes to the church Sunday afternoon at 4 o'clock, when the boxes will be opened. The superintendent requests the parents to remind their children of the time and send them. 256-2t

OIL FIELD WILL BE WORKED

Capitalists Interested in Formations in Vicinity of Milton.

Poteau, Okla., Jan. 31.—Arrangements are being made and leases taken for developing the oil industry at Milton, a town on the Fort Smith & Western railway in this county. Several thousand acres of land have been leased and as soon as the various details can be perfected several wells will be started. From reliable sources it is learned that the men who are promoting this deal have ample capital to carry out their plans.

Milton is situated in a valley in the northeastern end of La Flore county, the valley extending to the famous Muskogee oil field, and the formation is very much like that of the Tulsa and Muskogee fields and is pronounced "good stuff" by all oil men.

Kidney Troubles Attack Ada Men and Women, Old and Young.

Kidney ills seize young and old. Come quickly with little warning. Children suffer in their early years. Can't control the kidney secretions. Girls are languid, nervous, suffer pain.

Women worry, can't do daily work. Men have lame and aching backs. The cure for man, woman or child. Doan's Kidney Pills reach the cause.

The following testimony proves it. Mrs. C. B. Barksdale, of Holdenville, Okla., says: "A little over a year ago a member of my family had occasion to use a kidney remedy. At that time the person afflicted was suffering a great deal from sharp pains through the small of the back. There were other symptoms of kidney trouble and when a friend advised a trial of Doan's Kidney Pills, a supply was procured. Relief followed in a few days and continued use removed every symptom of kidney trouble. There has been no return attack."

Oklahoma State Land Sales.

Oklahoma City, Ok., Jan. 31.—Statements prepared by representatives of the school land lessees show that in the first, second and third sales districts land selling at public auction brought \$5,167,243.50, of which the state received but 5 per cent, or \$258,362.18, the remainder to be paid in forty equal annual installments. Rentals from the land amounted to \$194,347.50 per year. In the thirty-three counties there were 2,727 tracts offered, 1711 of them sold to lessees at the appraisement and 279 at an increased price. Of the total 2,670 were protected by preference rights of the lessees and 1,842 were the homes of lessees.

TO ADVERTISE ENOUGH

IS NOT ALWAYS POSSIBLE--BUT SOME PROGRESS IN THAT DIRECTION MAY BE MADE!

"Enough" advertising would give your business an immediate "jump"—give it an impulse forward which nothing could check.

If, therefore, you COULD advertise "enough," your prosperity-problem would be quickly solved.

What you CAN DO NOW is to reach out in the direction of adequacy in your advertising—"sacrifice" other things, in your desire to keep pace with the best and the biggest advertisers in your line.

If you make "other things" pay for the advertising up to the point of partial adequacy, after that the advertising will pay for the other things—for ALL of the other things.
